Under floor heating systems

Pre-assembled S1 manifold distribution system

Description

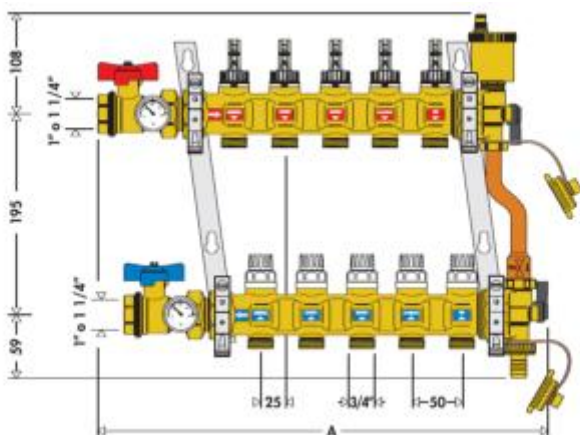

This pre-assembled distribution system is supplied complete with flow manifold complete with flow meters and balancing valves; return manifold with built-in shut-off valves (option to fit thermo-electric actuators); end caps with multi-position ball valve, automatic air vent, fill and drain valves, with hose connections. Also included is a differential by-pass kit, wall mounting brackets and 1 1/4" inlets/outlets.

The picture (right), shows the pre-assembled manifold without the isolating ball valves which are supplied with the unit. These ball valves have 1" connections.

**Pre-assembled, 5-way
S1 manifold distribution system**
